**MACHINE KITS
AND OPTIONS**

R-SERIES LOADERS KITS AND OPTIONS OVERVIEW

These machines have been redesigned from the ground up — but they are still hugely versatile, ready to meet the increasing demands of your tasks and work harder, with more comfort and legendary reliability. In true Bobcat fashion, there are also multiple aftermarket kits and options available for R-series loaders.

Do you plan to use various Bobcat attachments? You may need to equip your loader with the Attachment Control Kit. Do you need to protect your machine from damage during especially harsh operations? Check out the various protective kits. In the following table, we provide you with a complete overview of the kits and options available for R-series loaders. Then, on the pages that follow, there is detailed information for selected kits.

R-SERIES LOADERS KITS							
CATEGORY	KIT NAME	KIT DESCRIPTION	KIT PN	S66	T66	S76	T76
Attachments control	ATTACHMENT CONTROL KIT 7-PIN	Attachment Control Device (ACD 7-pin) Allows the use of Bobcat attachments that require the 7-pin connection.	7392835	●	●	●	●
	ATTACHMENT CONTROL KIT 14-PIN	Attachment Control Device (ACD 14-pin) Allows the use older Bobcat attachments that require the 14-pin connection.	7393140	●	●	●	●
Additional weight	AXLE WEIGHT KIT 81.3 kg (180 LBS)	Extra axle weight can be mounted either on front or rear axle. Installed on the front axle, it increases down force on attachments but does not increase the Rated Operating Capacity (ROC) of the loader. Installed on the rear axle, provides additional Rated Operating Capacity (ROC) of the loader.	7326081			●	
	90.7 kg (200 LBS) WEIGHT KIT	Adding extra counterweight kit to the loader can both increase the Rated Operating Capacity and re-balance the machine for better control when using certain large attachments.	7407734	●	●	●	●
	136.1 kg (300 LBS) WEIGHT KIT	Adding extra counterweight kit to the loader can both increase the Rated Operating Capacity and re-balance the machine for better control when using certain large attachments.	7407736			●	●
BobTach	POWER BOBTACH KIT	Power BobTach is turning the S76/T76 Bobcat loader into a versatile fleet by adding the possibility to quickly and easily change between bobcat attachments for even greater versatility and efficiency. Quickly swap non-hydraulic loader attachments without leaving your seat. For hydraulic Loader attachments, all you need to do is hook up the hoses after you have secured the attachment to your Loader.	7360584			●	●
	POWER BOBTACH KIT	Power BobTach is turning the S66/T66 Bobcat loader into a versatile fleet by adding the possibility to quickly and easily change between bobcat attachments for even greater versatility and efficiency. Quickly swap non-hydraulic loader attachments without leaving your seat. For hydraulic Loader attachments, all you need to do is hook up the hoses after you have secured the attachment to your Loader.	7388378	●	●		
Comfort	AIR RIDE SEAT KIT	Air suspension and heated seat offers increased operator comfort by adjusting to your weight and smoothing the effects of bumpy jobsites. Heating comes especially handy during the winter months with chilly shift starts.	7376275	●	●	●	●
	FLOOR PLATE KIT	The floor plate kit can be installed into the R-Series cab, so that it resembles the old M-Series cab with the central transmission channel, which can be used as a foot rest during operating and to making entry and exit easier.	7350308	●	●	●	●
Electrical	BEACON KIT	Increases visibility and safety with a rotating beacon light for Loaders. Kits include the harness, switch, and installation instructions.	7375338	●	●	●	●
	STROBE KIT	Increases visibility and safety with a flashing strobe light for Loaders. Kits include the harness, switch, and installation instructions.	7375339	●	●	●	●
	4-WAY FLASHER KIT	Ensure your loader is always visible with this 4-Way Flasher Lights warning accessory. Kits include the harness, switch, and installation instructions.	7375340	●	●	●	●
	REAR CAMERA KIT	Have your back covered and enhance operator comfort with the Rear-View Camera System for Bobcat loaders. This system provides an ergonomic and comfortable solution for your daily job.	7384581	●	●	●	●

R-SERIES LOADERS KITS							
CATEGORY	KIT NAME	KIT DESCRIPTION	KIT PN	S66	T66	S76	T76
Electrical	PREMIUM HEAD LIGHTS KIT	Upgrade your standard loaders Head Lights with the LED Premium Light Kit. LED lights provide increased light output combined with long lifetime, eliminating need for bulbs replacement and minimizing repairs or maintenance needs.	7387669	●	●	●	●
	SIDE LIGHTS KIT	Integrated LED side kit enhances lighting capabilities on the side of the machine, with bright, far-reaching illumination and a minimal power draw for long-lasting performance and higher light output. Bespoke design and ideal placement ensure protection against damage.	7387670	●	●	●	●
Protection	HOSE GUIDE KIT	The hose guide ensures a neat and tidy hose routing between the attachment and the machine. Keeping them in place to keep them protected from damage.	7407738	●	●	●	●
	REAR DOOR GUARD KIT	Durable metal guard protects the whole rear door of the loader and engine compartment from damage during applications requiring extra protection.	7348481	●	●	●	●
	REAR BUMPER KIT	The Rubber Rear Bumper kit protects the rear of the loader from damage due to scraping or contact with objects in confined work spaces.	7355791	●	●	●	●
	HEADLIGHT GUARD KIT	The Headlight Guard kit provides additional protection of the loader front worklights when working in applications where extra safeguarding is required.	7356719	●	●	●	●
	COUPLER GUARD KIT	The Coupler Guard Kit is a fully enclosed metal housing installed over the auxillary quick couplers, protecting them from damage.	7360697	●	●	●	●
	TAIL LIGHT GUARD KIT	The Tail Light Guard kit provides additional protection of the loader rear tail lights when working in applications where extra safeguarding is required.	7360711	●	●	●	●
Special applications	4-POINT LIFT KIT	Four Point Lift Kit allows lifting the loader by crane and transporting it to otherwise inaccessible locations such as ships or closed silos.	7317266			●	●
			7385755	●	●		
	SINGLE POINT LIFT KIT	Single Point Lift Kit allows lifting the loader by crane and transporting it to otherwise inaccessible locations such as ships or closed silos. Bracket that attach to the main frame and loops over the cab roof allowing the machine to be lifted from a single point.	7320038			●	●
	REAR LEXAN WINDOW KIT	The Rear Lexan Window kit provides additional security for special applications. Made from impact-resistant, durable polycarbonate material which will not shatter like glass. Keeps operator safe from flying rocks and debris during brush clearing and mowing operations.	7376903	●	●	●	●
	SPECIAL APPLICATIONS DOOR KIT	Lexan Door Kit provides additional security for special applications. Made from impact-resistant, durable polycarbonate material which will not shatter like glass. Keeps operator safe from flying rocks and debris during brush clearing and mowing operations. Lexan door also helps keeping cab cooler in the summer and warmer in the winter thanks to the increased energy efficiency.	7376911	●	●	●	●
	ROAD KIT MANUAL CONTROLS	The Road Kit equips the loaders for travel and use on European Union roads. The kit contains a range of modifications and accessories: a beacon, front lights including turn indicators, mirrors, brake lights, a slow-motion vehicle triangle, licence light and other required components.	7391545	●		●	
ROAD KIT SELECTABLE JOYSTICK CONTROLS	7416258		●	●	●		
	7351356					●
