

Description

Extend your Bobcat® loader work into winter with a hydraulically-driven snowblower. This attachment is ideal for clearing sidewalks, driveways and parking lots. Adjustable height skid shoes position cutting edge for gravel or pavement. Depending on model, throws snow up to 12 m.

Main features

- There are three models with several different widths and different motor packages to perfectly match with your Bobcat® loader.
- The snowblowers feature direct-drive hydraulic motors for the fan and auger; eliminating high-wear items such as gearboxes, chains, sprockets, and shear pins.
- Chute rotation is achieved by a chain and sprocket system, eliminating loose, tangled and frozen cables.
- All models feature an adjustable fan opening, allowing the operator to control the amount of air and snow entering a more efficient 15 cm deep fan.
- A new valve block is mounted directly on the fan motor and results in minimal reduction of hydraulic pressure and reduces the number of hydraulic hoses and elbows on the snowblower; no hoses on the operator entry/exit side of the attachment ensure safer operation.

Applications

- Snow Removal
